## VAN & MPV S-LIFT MOBILITY SOLUTIONS

Worldwide safe mobility solutions

## S-LIFT Pro swivel seat

S-LIFT Pro swivel seat is a kind of equipment to make easy entrance of SUV , MPV and etc. It helps the old or the disabled to get seated safely, conveniently and comfortably.

It is operated by wired remote control, switches on seat or your mobilephone.

This seat is programmable by the wired remote control including programming the movement of lengthwise, rotation and seat backrest angle.

When the power is low, the seat will lock itself and give the warning. If the power is cut off when the seat is running, after repower the seat can be recovered without fault.

Turning direction can be clockwise or anti-clockwise.

### Advantages:

- manual emergency function
- door interlock function;
- programmable by the wired remote control;
- automatic filter;
- auto sleep mode;
- use the wired remote control to backup or copy the program to other seats without computer;
- can be controlled by wired remote control, switches on seat or your mobilephone;

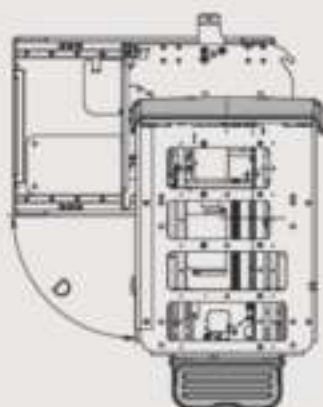

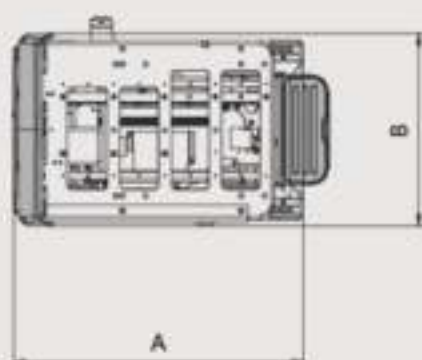

### Technical:

- Voltage .....12Vdc
- Power ..... 120W;
- Loading Capacity .....150Kg;
- Lowering Height ..... 395mm;
- Rotating angle ..... 0- 90° ;
